OVERVIEW

TrendTech Logistics provides **Operational Logistics, Intelligence & Visibility** solutions that help government agencies, contractors, and commercial organizations coordinate people, vehicles, materials, supplies, and operational resources. Our hands-on logistics execution, transportation coordination, data-driven intelligence, and technology-enabled visibility improve accountability, operational awareness, resource movement, and decision-making across transportation, construction, public works, emergency management, infrastructure, and mission-critical operations.

Our capabilities extend from passenger and fleet transportation to material movement, construction logistics, asset coordination, and technology-enabled operational management.

REAL SOLUTIONS. STRONGER MISSIONS.

AWARDED CONTRACTS / SELECTED EXPERIENCE

- Transportation & Freight Delivery – Private-Sector Logistics Operations (Aug 2026 - Active)**
26-ft box truck transportation for palletized freight supporting Amazon-related operations, shippers, warehouses, distribution centers, USPS locations, and other logistics facilities; scheduled pickup and delivery, facility-to-facility freight movement, route coordination, driver scheduling, time-sensitive transportation operations.
- DeKalb County Government – Human Services Department (Jun 2025 - Active)**
NEMT operations for senior mobility programs, including route coordination, trip management, and door-to-door service delivery.
- Hartsfield-Jackson Atlanta International Airport (Jul 2024)**
Coordinated a charter bus tour for 50 staff members around the Greater Atlanta Area.
- State of Georgia Department of Public Health (Oct 2022 - Feb 2024)**
Managed staff shuttle service for 100+ employees daily, improved efficiency and reduced costs by 15% through route planning and subcontractor coordination.
- Texas Facilities Commission (Aug 2022 - Active)**
Managed transportation of surplus military and federal equipment nationwide, reducing logistics costs and ensuring timely, compliant deliveries.

CORE COMPETENCIES

- Fleet & Route Optimization
- Transportation & Logistics Coordination
- Project & Program Management (Transportation & Infrastructure)
- Emergency Response & Continuity Operations
- Technology-Driven Fleet Operations (TrendTech EmergeX)

“Integrated logistics for stronger missions and a more resilient tomorrow.”

TECHNOLOGY & IT-ENABLED LOGISTICS

- ✓ TrendTech EmergeX – proprietary logistics and fleet operations platform
- ✓ Real-time fleet tracking and asset visibility
- ✓ Incident and emergency response coordination
- ✓ Route optimization and operational efficiency monitoring

PRIME PARTNER SUPPORT AREAS

- ✓ Fleet coordination & dispatch
- ✓ Transportation operations
- ✓ Field logistics & resource movement
- ✓ Emergency / surge logistics support
- ✓ Technology-enabled visibility
- ✓ Scalable support for defined prime contract requirements

DIFFERENTIATORS / WHY TTL

- ✓ Operational Logistics, Intelligence & Visibility Focus
- ✓ Technology-Enabled Operational Solutions
- ✓ Real-Time Resource & Fleet Visibility
- ✓ Data-Driven Operational Decision Making
- ✓ TrendTech EmergeX Operational Intelligence Platform

“A trusted partner in operational logistics.”
