

Operational Intelligence Platform

Unified visibility. Smarter decisions. Mission ready.

TrendTech Emergex is an operational intelligence platform developed by TrendTech Logistics to provide government agencies, public safety organizations, transportation providers, and critical infrastructure operators with real-time visibility across emergency response, fleet management, supply chain coordination, and operational readiness.

REAL-TIME INSIGHTS. STRONGER OPERATIONS.
SAFER COMMUNITIES.

FROM DATA TO READINESS.
ANYWHERE. ANYTIME.

CORE CAPABILITIES

Emergency Response & Incident Management

EOC dashboard, incident tracking, situational awareness

Fleet Management & Transportation Operations

Real-time GPS visibility, driver compliance, routing, asset tracking

Supply Chain & Resource Visibility

Inventory tracking, supply forecasting, purchase orders, resource allocation

Operational Intelligence & Analytics

Unified command dashboard, real-time reporting, GIS integration, AI-driven insights

PLATFORM MODULES

Command Center

Centralized dashboard for incidents, assets, resources and response activity

Tactical Operations Map

Real-time geographic view of fleet assets, shelters and incidents

Driver Portal

Mobile inspections, compliance reporting, maintenance requests and assignments

Shelter Hub

Shelter capacity, occupancy, available resources and status

Work Order Management

Maintenance tracking, repair management, lifecycle monitoring and asset readiness

EMMA Assistant

AI-powered operational assistant for monitoring and rapid information access

KEY BENEFITS & OUTCOMES

Improve operational readiness

Enhance situational awareness

Increase resource accountability

Reduce response times

Strengthen interagency coordination

Improve fleet utilization

Support data-driven decision making

Increase operational efficiency

"Turning information into coordinated action for stronger, safer communities."

TARGET MARKETS

Government Agencies

Federal, State, Local, Emergency Management Agencies

Public Safety Organizations

Police Departments, Fire Departments, Emergency Medical Services, Emergency Operations Centers

Transportation & Fleet Operations

Public Transit Systems, Shuttle Operations, Airport Transportation, Fleet Management Organizations

Infrastructure & Public Works

Public Works Departments, Utilities, Water Authorities, Construction Operations

Logistics & Supply Chain

Distribution Operations, Warehouse Management, Transportation Providers, Resource Coordination Centers

DIFFERENTIATORS / WHY EMERGEX

Unified operational platform combining emergency management, fleet coordination, and resource visibility

Real-time situational awareness across fleets, assets, shelters, and operational activities

AI-enabled decision support through EMMA Assistant

Built to support operational readiness and mission coordination

Scalable deployment across public-sector, logistics, and emergency-response environments

A FORCE MULTIPLIER
FOR A MORE RESILIENT TOMORROW.
